	7.0	EOL <sup>4</sup>	✓	✓	✓	✓
	6.3	EOL <sup>4</sup>	✓	✓	✓	✓

- 1 Although the AC software can be run in virtualised environments, Asset Control is not yet able to provide technical support for performance-related problems in a virtualised environment. If you do choose to run in a VM, please ensure that you choose a VM with good IO throughput.
- 2 For the x86\_64 and Sun SPARC 64 processors some AC Server utilities still require 32-bit C libraries. These utilities are not the core AC Server processes.
- 3 For AC Server 6.3.28 or lower Oracle 11 client libraries are required.
- 4 Support is still available at our discretion under specific conditions - please ask our Support department
- 5 MS SQL is only supported for RHEL and SUSE and not for Solaris.
- 6 UTF-8 is only supported in combination with Oracle and not with Sybase and MS SQL.

- 1 Other JVMs are not supported (e.g. IBM, OpenJDK).
- 2 Some Server side applications are delivered with a module in the AC Desktop to retrieve data or configure the application.
- 3 As of AC Server 7.3 Audit Trail is embedded in the AC Server. In AC Server 7.0 Audit Trail is only required for Time Series data (Reference Data is embedded)
- 4 Requires AC Server 7.0.12 or later
- 5 Requires AC Server 6.3.27 or later
- 6 Requires 7.3.13 or higher
- 7 Requires Normalized Model 2.1.59 or later and Consolidated Model 2.1.20 or later
- 8 Requires AC Connect 2.6.7 or higher
