- 1 Although the AC software can be run in virtualised environments, Alveo is not yet able to provide technical support for performance related problems in a virtualised environment. If you do choose to run in a VM, please ensure that you choose a VM with sufficient IO throughput.
- 2 For the x86\_64 and Sun SPARC 64 processors some utilities still require 32-bit C libraries. These utilities are not the core processes.
- 3 Limited support - only high priority production issues
